

Since its inception in 1965, SCAP has remained devoted to its mission of helping people help themselves when they are in economic, educational, or social need. We do this by identifying changing community needs and mobilizing resources; administering programs that address ongoing community needs; and individual and systemic advocacy on behalf of those we serve. We are proud of our record of providing a wide-range of opportunities and assistance to low income individuals and families. SCAP looks to the future with commitment and confidence as we continue to engage the community and meet the challenges to support low-income people to reach their goals.
