206
Children receiving dental care

59
Children had an Individualized Education Plan (IEP) indicating that they have been determined eligible to receive special education and related services.

Children Ages 0-5 Meeting or Exceeding Age-Appropriate Skills

60 YEARS. STILL CHANGING LIVES.

Since 1965, SCAP's Early Learning Programs have given children in Schenectady County the foundation they need to thrive. The proof isn't just in the data. It's in the families who come back.

TWO GENERATIONS, ONE SCAP FAMILY

Liala Kanan began her journey at SCAP Head Start, learning English alongside the skills that would carry her forward. This spring, she graduates from Penn State.

Her mother, Rogia Mohamed, has worked at SCAP for over ten years, giving back to the same program that helped her family find their footing in a new country.

"SCAP became the place where I first learned English, where teachers and resources helped me find my footing in a world my parents had worked so hard to prepare for me. It was more than a classroom; it was a foundation for everything that has followed."

— Liala Kanan, Head Start Alumna

FROM HEAD START STUDENT TO COMMUNITY LEADER

Kylea Tellis graduated from SCAP Head Start in 2001. Today she runs a licensed home daycare, organizes back-to-school supply drives for children across Schenectady County, and credits her early experience with shaping everything that followed.

"Head Start gave me such a strong foundation. Now as a daycare provider and mom myself, I can see how those early experiences shaped my passion for caring for children."

— Kylea Tellis, Head Start Alumna
